## Summary

Adam Karman has always had a passion for computers, and has great aspirations to begin a career in an IT Field. Realizing his goals, Adam enrolled in the University of Arizona's Full Stack Web Development Class in October, 2018 and graduated late March, 2019. There he learned the technologies, skills, and practices to build fully functional web applications; from client side displays and User Interfaces, to setting up and running API Servers, Database Architecture, and display Routing – as well as technologies such as React.js, MongoDB, and Express.js (and multitudes of others). Adam brings a hardworking and intelligent – yet amiable – attitude to the workplace; he enjoys challenges and learning new skills, and peers in school extolled his quick learning and ability to efficiently and pleasantly work with others.
